

Position: Water Hygiene Technician (Healthcare)

Location: Central London

Evolution Water Services Ltd. is a market leader within the water treatment and air hygiene industry, providing the highest quality total water treatment, water hygiene, consultancy and legionella training packages throughout the UK.

Since its inception in 1999, Evolution has enjoyed significant and continued success, and has grown to become one of the UK's foremost specialist partners in our marketplace, with a proven track record of delivering multi-disciplined, innovative and client/site-specific legionella control schemes.

As part of our ongoing expansion programme we have an additional requirement to recruit a Water Hygiene Technician to join our existing Healthcare team. The role would suit someone who has good communication skills, is ambitious and keen to improve their existing knowledge and capabilities with aspirations to further their career

Responsibilities Include

- Temperature monitoring and general HSG274/ HTM 04-01 water hygiene tasks
- Pseudomonas and legionella sampling
- TMV maintenance
- Chlorine dioxide analysis
- CWS Tank inspection
- Chlorination and disinfection works
- Assisting the Account Management team with client review meetings

Essential Skills & Experience

Candidates should have a minimum of 2 years' experience in a Water Hygiene monitoring role with specific involvement in water hygiene programmes within the Healthcare sector.

The successful candidate will receive an excellent remuneration package, consisting of; competitive salary, overtime and bonus scheme, Private Healthcare cover, contributory pension scheme, all necessary communications equipment and annual paid holiday entitlement.

If you feel that you meet the above criteria and would like to join a market leading company, please forward your CV to candidates@evolutionwater.co.uk
